

## 6MVA Blower

### Features

Hand built forward curve blowers, our MVA series is suitable for a vast range of applications, with market leading pressure and volume characteristics.

The MVA series are typically single width pedestal mounted fans, capable of being rotated to any discharge direction and orientation.

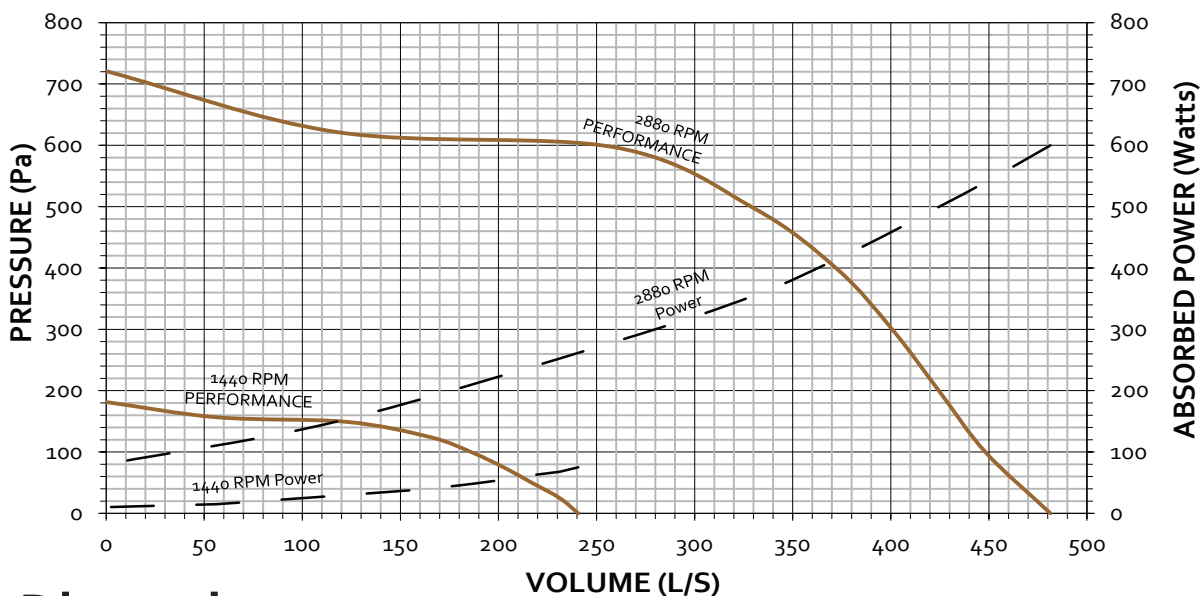

The MVA series can be built in copper or stainless steel to suit any hazardous or marine environment, with the motor kept out of the air stream to minimise wear and tear and the need for costly motor refurbishments or replacements.

### Options

1. Inlet Spigot
2. Inlet/Outlet Transitions
3. Stainless Steel/Copper construction for hazardous or marine environments
4. 2 Pole or 4 Pole
5. Powder coated finish

### Performance

6MVA PERFORMANCE with AA610-325 WHEEL

### Dimensions

\*ACW180 shown. All discharge positions available
